The Same Man. To the Editor of The World:

Is James J. Belden, the head of the Republican Executive Congressional Committee at Washington, and a member of Congress at washington, and a member of Congress from New York State, the same man who figured so conspicuously during the administration of Gov. Thirden as one of the canal rate who, as alieged, stole \$400,000 from the State of New York? We Republican newspaper people in this State want to know something of the character of the source from which we receive our instructions in regard to Congressional measures.

The Grand Army's Opportunity. I From the Botton Franc

The Grand Army of the Republic was founded for a noble and sacred purpose, one appealing to the highest sentiments of one appealing to the highest sentiments of which man is capable. It would prove a thousand pities to allow this association, started with such praiseworthy views to degenerate into an instrumentality under cover of which the most outrageods scheme to loos the National Treasury are formulated and the organization rendered responsible for the acts of mercenary politicians caring only to sorte individual or party sade, Nati week the Grand Encampment can it is will, authoritatively voice the better seeinment of the Grand Army of the fraudble, and by so doing reliestate that order in the good optimos once entertained for it by all classes of citizens.
